 FOWLERVILLE, MICHIGAN

GARDEN CHRYSANTHEMUMS

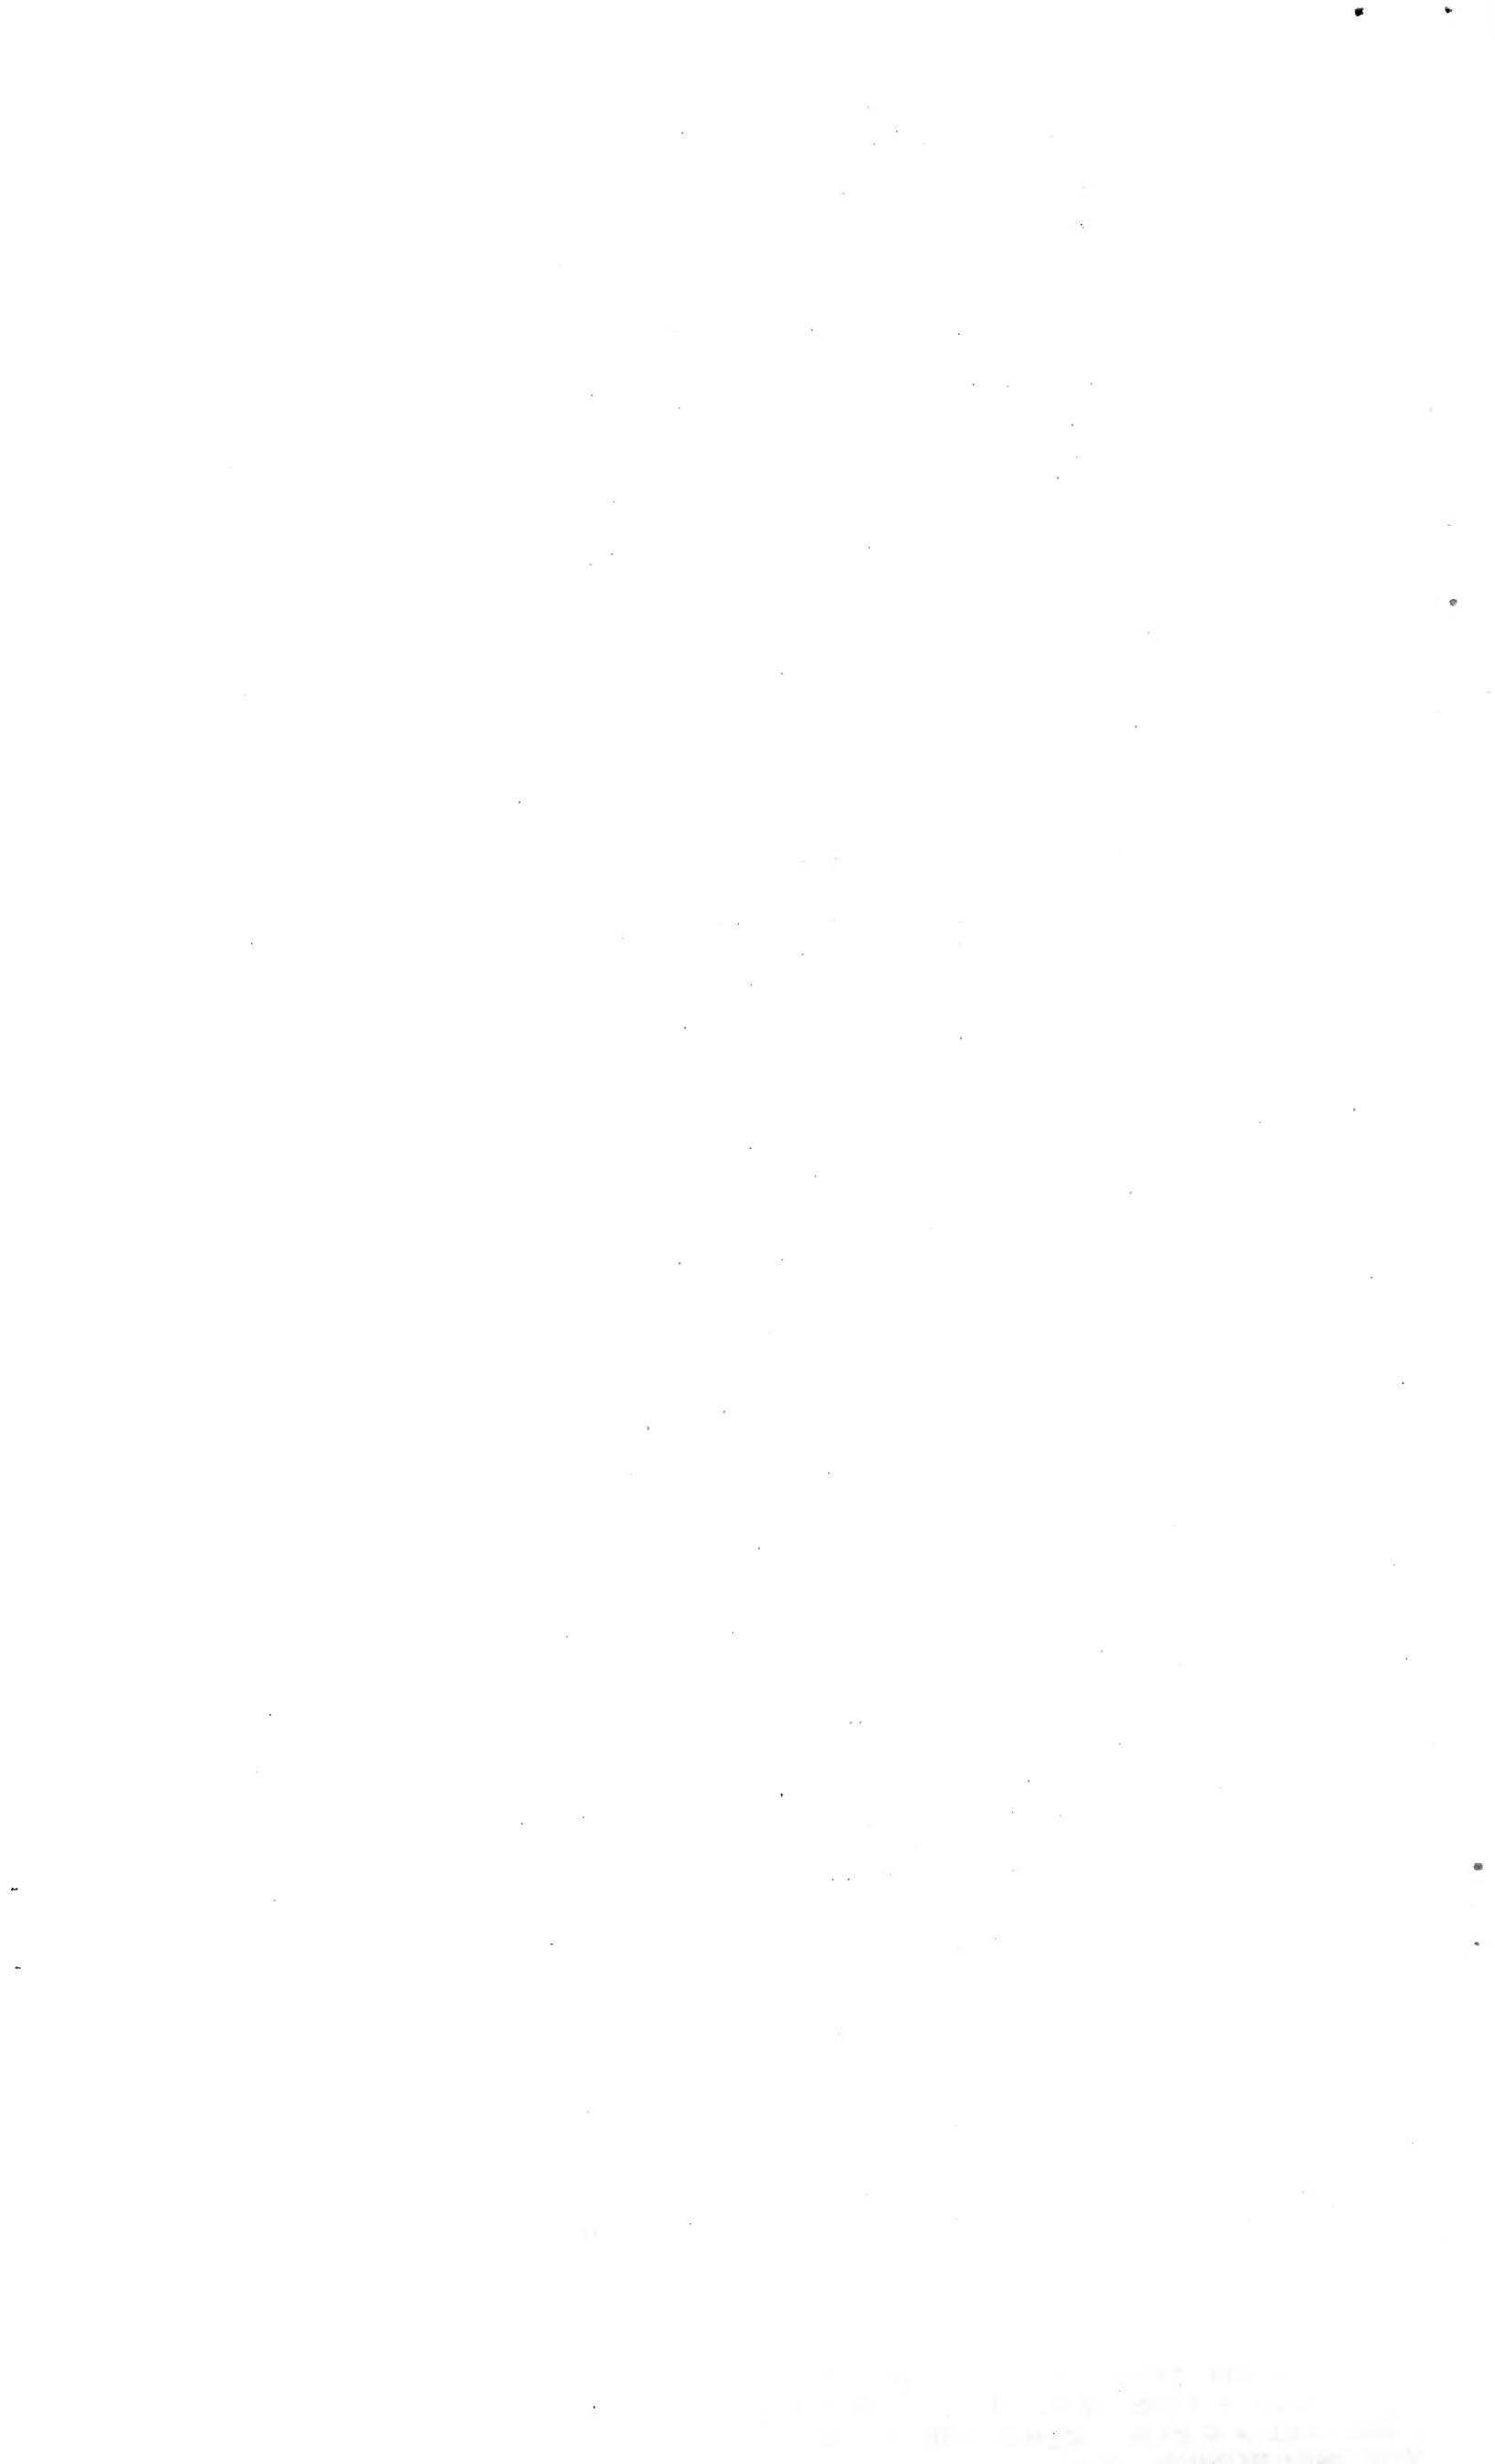

Garden Chrysanthemums are field grown divisions, shipped about May 15 if weather here in the north permits. They should be planted at once on arrival, well watered, protected from the sun for a few days. We pinch the tips about July 10th and fertilize with Vigoro or some other balanced plant food at this time, and again when the buds first show.

Allow 60¢ postage to cover packing, parcel post with Special Handling.

ALLEGRO (D)	Glowing shrimp pink with coppery salmon suffusion.	.35¢

FUJI OR SPIDER CHRYSANTHEMUMS

These are tender varieties and must be grown inside here in the north.
 KAY TASHIMA - Large size white, large tubes with fishhook tips.
 PUNCH BOWL - A rich burgundy red spider.
 MISS GENA HARWOOD - Rose with slender cord-like petals.

YOSEMETE - Soft yellow, slender cord-like petals.

COPPER GLOW - Subdued copper tones.

Each .75¢ One of each of the above five. \$3.00

All of the above Fuji varieties should be pinched when they are about six inches in height, three branches allowed to grow, staked as they grow longer and disbudded to one flower on each stem.

CASCADE OR TRAILING

ANNA - Pure white with a golden yellow center. Pinch when six inches in height, then as branches develop should be supported on wires, (strong) left at least 30" long.

Each .75¢

LARGE GREENHOUSE VARIETIES

ANACONDA - Bronze red incurved, a hugh flower of richest coloring.

ED SEIDWITZ - Large lavender pink, very full incurved variety.

J.W.PRINCE - A true rose pink incurved beauty.

MRS. KIDDER - A rich true yellow, easy to grow.

INDIANAPOLIS WHITE - Clear white of the finest form.

FRIEDA - Large lavender-pink with cushion of soft creamy yellow. Should be grown to not more than 3 stems with one flower per stem.

Each .50¢ One of each of the above six. \$2.50

(Culture same as for the Fuji varieties)

D - Double * SD Semi-double
